Emtelle and HBNL Join Forces to Connect Homes

At Connected Britain, Emtelle and Highland Broadband (HBNL) announced the next phase of our mission to transform connectivity in rural Scotland. Backed by a £50m investment, HBNL will extend full-fiber to more than 150 towns and villages over the next year, bringing faster, more reliable broadband to thousands of homes, schools, and businesses across the Highlands.

Emtelle is proud to power this rollout with our fiber and ducting solutions, technical expertise, and deployment support. For communities long left behind, this partnership is about more than technology, it's about unlocking equal opportunities, no matter where you live.

Connected Britain 2025

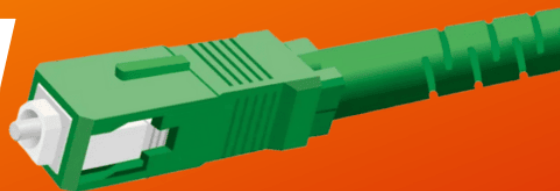

Emtelle proudly attended Connected Britain 2025, where our stand was alive with energy, engaging conversations, and the chance to showcase our latest fiber deployment innovations. One of the highlights of the event was Scott Modha, Head of PLM, taking the stage to present how Emtelle is redefining FTTH delivery with a complete, end-to-end product portfolio. From Homes Passed Plus to pre-connectorized systems and next-generation indoor connectivity, Scott highlighted how our British-made solutions are helping providers build networks smarter, faster, and more efficiently.

We were also delighted to announce our competition winners, Daniel Pendry and Rachel McKerr, congratulations once again, and we hope you enjoy your prizes! Finally, a huge thank you to everyone who visited our stand and to the dedicated Emtelle team whose hard work made the event such a success.

We're already looking forward to the next opportunity to connect, because together, everything connects.

SCv ASSEMBLY

Engineered for Efficiency, Designed for You

SCv ASSEMBLY

Simplifying Blowable Connectivity

Our SCv Connectors are built to simplify fiber deployment by streamlining the installation process, reducing complexity, and saving both time and cost in the field. With only **four key components** – the Connector Boot, Main Body, Front Body, and Front Housing – assembly is quick, straightforward, and requires no special tools. Watch our latest animation to see just how easy it is to put together, and discover how SCv Connectors fit into our wider portfolio of pre-connectorized solutions that help providers build smarter, faster, and more reliable networks.

WHITE PAPER

Transforming Fiber Deployment Worldwide

Check Out Our Latest White Paper

Our Microduct Solutions can save you **25%** in material and labor!

www.emtelle.com

Emtelle's micro cabling systems are redefining network deployment strategies in the USA and worldwide. With growing demand for high-speed connectivity, operators require solutions that deliver faster rollouts, greater cost-efficiency, and measurable environmental benefits.

Our latest White Paper highlights how Emtelle's end-to-end micro cabling solution can achieve up to 80% faster installations, deliver 25% savings in materials and labor, and reduce CO₂ emissions by up to 75% compared to conventional approaches. These outcomes demonstrate the significant value our solutions bring in aligning commercial goals with sustainability commitments.

From FTTH and middle-mile projects to data center networks, our air-blown fiber technology provides the speed, scalability, and sustainability required to meet today's connectivity challenges while preparing for the future.

DSEI UK 2025

Last month, the Ridgemount team attended DSEI UK 2025 at ExCeL London, one of the world's leading defense events. It was an exciting week where we had the opportunity to showcase our advanced fiber connectivity solutions, designed for resilience, agility, and performance in the most demanding environments. At Stand N2-132, visitors joined us for live demonstrations, engaged with our experts, and explored how Ridgemount technology supports mission-critical operations. We were also delighted to run an exclusive competition, adding extra energy to an already successful and memorable event.

NEW EMTELLE WEBSITE

New EmteUe Website

WEBSITE LAUNCH

2025

Last month, EmteUe proudly launched our brand-new website! To celebrate this milestone, we held small gatherings across our sites, bringing teams together to enjoy refreshments and recognize the hard work that made it possible. A big thank you to everyone who joined the celebrations. We're excited about what's ahead, if you haven't explored it yet, visit our new website today.

We invite you to take a look around and see how Emtelle is evolving to support your success, every step of the way. Explore today: www.emtelle.com

Launch Announcement: Our AI Chatbot EMTelli is Live!

We're excited to introduce EMTelli, our specialized AI chatbot for Homes-Passed[1]Plus (HP+) solutions – designed to support network operators, infrastructure and deployment contractors, and other stakeholders in the telecommunications industry with targeted advice and solution-finding for individual project challenges and customer requirements in the FTTH rollout.

What can the chatbot do?

Our digital assistant is available 24/7 to answer your questions about HP+ and guide you in efficiently implementing your FTTH rollout projects – from planning and execution to achieving your goals.

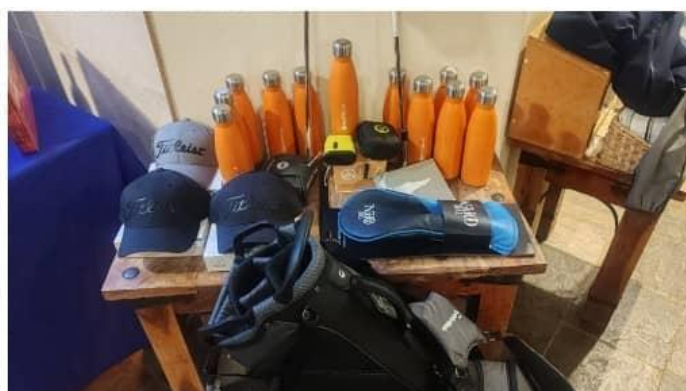

Your Benefits:

- Fast, precise answers about HP+ solutions (24/7)
- Support in optimizing your FTTH rollout projects
- Concrete guidance and calculation examples (cost models) to help you reach your business goals in fiber optic network expansion
- Forwarding of your specific project inquiries to our Homes-Passed-Plus experts/sales managers for detailed order discussions

Try it now and discover how EMTelli makes your FTTH rollout smarter: <https://www.emtelle.de/>

Emtelle was proud to support the Woll Golf Club Gents Open

Emtelle was proud to support the Woll Golf Club Gents Open in the Scottish Borders, last month. With 161 entrants, it was a fantastic day filled with golf, camaraderie, and community spirit. Together, we raised an incredible £800 for the Club Captain's Charity, Cancer Research UK.

Dave Rames, Woll Club Captain and New Product Sales and Research Manager at Emtelle, shared, *"I can't thank Emtelle enough for the kind support/sponsorship during the event, it was a huge success, raising money for a worthwhile cause was the objective of the day."*

A huge thank you to everyone who took part and contributed, your support made this event a real success, both on and off the course.
