HIGHLIGHTS FROM THE AGENDA

Panel 4 - State of the Germany FTTH market: roadblocks, challenges and opportunities ahead

26th March 2025, 14:30-15:45 CET

*Explore the evolving landscape of the Germany's fibre-to-the-home (FTTH) market in this country-focused panel discussion. As **one of the countries in the EU27+UK area with significant ground to cover in fibre rollout and adoption**, Germany faces unique challenges and opportunities. Industry experts will analyze deployment barriers, regulatory hurdles, and strategies driving network expansion.*

*The session will also **comment on the latest data from the FTTH/B Market Panorama report**, to be unveiled at the FTTH Conference 2025, offering insights into **Germany's progress relative to the rest of Europe**. Join us to gain actionable strategies to advance fibre connectivity in this critical market.*

Panel 5 - AI and Fibre Networks

26th March 2025, 16:15 - 17:30 CET

*Artificial Intelligence is revolutionising the fibre industry, simultaneously driving bandwidth demand and optimising network deployment and operations. This panel will explore the **latest advancements and future implications of AI in FTTH networks**. Industry experts will discuss how AI is reshaping the way networks are designed, managed, and scaled, addressing both opportunities and challenges.*

*From predictive maintenance to enhanced customer experiences, discover the **transformative role of AI in enabling smarter, more efficient fibre networks**. Join this session to stay ahead of the curve in the AI-driven evolution of our industry.*

About us

The FTTH Council Europe is an industry organisation with a mission to advance ubiquitous full fibre-based connectivity to the whole of Europe.

Our vision is that fibre connectivity will transform and enhance the way we live, do business and interact, connecting everyone and everything, everywhere. Fibre is the future-proof, climate-friendly infrastructure which is a crucial prerequisite for safeguarding Europe's global competitiveness while playing a leading global role in sustainability.

The FTTH Council Europe consists of more than 160 member companies.
