

Webinar Series

Streamlining the planning and operations fiber lifecycle: Deutsche Glasfaser case study

Thursday, 25 April 2024, 2:00 - 3:00 PM CET
Attendance free of charge

[CLICK HERE TO REGISTER](#)

As one of Germany's fastest growing and most innovative broadband operators, **Deutsche Glasfaser** is using industry leading technology and process best practice to connect and streamline their design, planning, construction and operational processes. Join this webinar, organised by **IQGeo**, to deep dive into the strategic priorities for the **creation of an accurate digital-twin** that forms the foundation to optimize the fiber network lifecycle for both staff and contractors.

Deutsche Glasfaser strategic network management priorities:

- Document the fiber network in real-time
- Automate and capture as-builts in the field
- Validate network performance proactively
- Manage and accelerate contractor processes

SPEAKERS OF THIS SESSION:

Jakob Kwiatkowski
Head of Passive Network High Level
Deutsche Glasfaser Holding GmbH

Christian Würth
Head of Passive Network Architecture
Deutsche Glasfaser Holding GmbH

Anthony Nasr
Customer Success Manager
IQGeo

Webinar organised by **IQGeo**

Thursday, 25 April 2024, 2:00 - 3:00 PM CET
Attendance free of charge

About Us

The FTTH Council Europe is an industry organisation with a mission to advance ubiquitous full fibre-based connectivity to the whole of Europe.

Our vision is that fibre connectivity will transform and enhance the way we live, do business and interact, connecting everyone and everything, everywhere. Fibre is the future-proof, climate-friendly infrastructure which is a crucial prerequisite for safeguarding Europe's global competitiveness while playing a leading global role in sustainability.

The FTTH Council Europe consists of more than 160 member companies.
