

Visit VIAVI at FYUZ 2025

Your partner in test, automation & optimization

[BOOK A MEETING](#) >

Join VIAVI once again at [FYUZ 2025](#) and explore the latest innovations in network test, automation, and optimization. This year we'll be sharing some exciting updates on RAN Automation and Intelligence to take you confidently and securely from network development to deployment.

Here's a quick look at what we'll be showcasing:

 [Test with Confidence](#): Explore our lab and field solutions for AI-driven Open RAN networks, designed for precision, scalability, and real-time visibility.

 [Automate with Intelligence](#): Simplify complex deployments with advanced automation, including VIAVI Automated Lab-as-a-Service (VALOR) for Open RAN.

 [Optimize for Tomorrow](#): Unlock the full potential of your network data to drive performance and measurable ROI.

Your Trusted Partner for Network Test, Automation & Optimization

VIAVI is proud to support the innovators at the [AWS Breaking Barriers for Agentic Networks Hackathon](#), in partnership with Telecom Infra Project at FYUZ 2025. Providing our **TeraVM AI RAN Scenario Generator (AI RSG)** - an industry trusted platform that tests, trains and proves how AI can simplify, optimize, and transform multi-vendor RAN integration.

[We'd love to see you there](#) and share how VIAVI can support your goals. We're looking forward to seeing you!
